Service Level Agreement

Our dedicated business support team of network engineers is available to all business customers. Requests are processed according to the best-effort principle. You have the choice between different availability times.

Service	Costs/Year	Availability Times
Bronze	CHF 0*	MON-THU 9–20; FR 9–17
Silver	CHF 333*	MON-SAT 8–20
Gold	CHF 1'641*	7 × 24h

* Annual recurring costs.

** No setup fees are charged for a minimum contract period of 36 months.

All prices excl. VAT.

Site Networking

Virtual Leased Line (VLL)

Fast, secure and smooth data and communication transfer between a company's sites is essential for the functioning of central business processes.

From as few as two company sites, data of all kinds can be exchanged securely, stably and quickly using VLL, regardless of the distance between the sites.

The signal is transported reliably and separately from the Internet at 1 Gbit/s or 10 Gbit/s through our backbone.

The sites may be connected via FTTH, dark fiber or a datacenter. You may combine the service with a Fiber7 Business internet access.
