

Init7 values

Passion

We love what we do!

Our passion for technology empowers us to drive innovation. We challenge the status quo of the internet industry.

Excellence

Only the best is good enough!

Our products and services are high quality. Developing our capabilities is fundamental to the benefit of our customers.

Integrity

We don't do things halfway!

Our products and services deliver what they promise. We are honest with our customers and only sell things that we ourselves are convinced of.

Independence

A fair Internet market is important!

Monopolies prevent innovation and are harmful to the economy. That is why we are committed to a fair market and do not shy away from legal action.

Engagement

We are committed to the community!

The unrelenting commitment of countless like-minded people has helped Init7 to make significant progress. We are proud to be part of this community and promote the collective benefit.

Diversity

We promote diversity and inclusion!

Different backgrounds, experiences and perspectives are an enrichment. We accept and value everyone equally.

Sustainability

Our orientation is long-term!

To ensure sustainable development, we reinvest our profits in infrastructure, expertise and innovation instead of dividends.
